

Professional Studies (BPS)

Bachelor of Professional Studies

The BPS was developed to afford interested students several general studies options which enable those with diverse interests and prior college credits to develop a degree program that matches their career goals and, if appropriate, their employer's needs. These programs are particularly effective for students with many credits from other colleges or for those who believe they may use assessment and testing to earn credit. This program is offered online. Students develop these programs with an advisor from the dean's office.
